

Bruns 120-acre Easement Israel Township, Preble County

Just north of Hueston Woods State Park, this property straddles scenic Hopewell Creek, one of the healthiest and species-diverse streams in the Four Mile Creek watershed. The 120-acre parcel is an ideal example of a working grain farm that is intensively managed for wildlife and conservation values. The property features two ponds, riparian and

upland woodlands, an enhanced vernal pool, and several less-productive fields that were converted to native prairie habitat. Protected as a result of matching funds under a USFWS Cooperative Agreement.
