

The Beck Farm

(2003, 148 acres)

Michael Beck

Oxford Twp., Butler Co.

The scenic 148-acre Beck family farm is permanently protected from development, and preserves both natural and agricultural values. An upland hardwood forest and meadow is at the heart of the farm's natural features. This easement culminates work initiated by the Trust's founder, Wally Edward, and preserves the existing cottage graciously loaned by the Beck Family to the Trust for use as its office.
